PROFESSIONAL SUMMARY

To obtain a good career with an organization, seeking a quality environment, where my knowledge and experience can be shared and enriched. Looking for opportunities where I can improve my analytical and technical skills. I personally believe in competition and team spirit in a compatible environment.

WORK EXPERIENCE

Junior Associate

At KGL - KnowledgeWorks Global LTD.

Location: Sakinaka | Full Time - **Present**

Role Summary:

As a Junior Associate, I am responsible for creating, editing, and maintaining structured content using HTML and XML. The role involves ensuring clean, semantic HTML markup, proper tagging, and adherence to formatting standards for web and data publishing. Collaborates with cross-functional teams to support data integration and quality control across digital platforms.

Software Engineer

At Lionbridge Technologies

Location: Airoli Mindspace | Hybrid

Role Summary:

As a Software Engineer focused on localisation at Lionbridge Technologies, I specialise in preparing and optimising digital content for multilingual web delivery. My role bridges technical web development and internationalisation, ensuring that HTML content is structurally sound, linguistically adaptable, and ready for seamless translation and global deployment.
